

First Federal Savings and Loan Association's ATM Card or MasterCard® Card will enable you to conveniently conduct routine transactions. With it, you will be able to withdraw cash and get information on your accounts 24 hours a day, seven days a week.

What is the difference between an ATM Card and a MasterCard® Card?

An ATM card is linked to your savings and/or NOW checking account and can be used at any Automated Teller Machine to receive cash, up to \$100 each day. A MasterCard® Card is linked to your savings and/or NOW checking account so that you may access either account at any ATM to receive cash, up to \$500 each day. It can also be used to access funds from your NOW checking account at a Point of Purchase anywhere MasterCard® is accepted, up to \$1,000 each day!

What is a Personal Identification Number?

*The Personal Identification Number (PIN) is a four digit numeric identification known only to you. When you insert your card into an ATM you will immediately be instructed to enter your PIN. You will not be able to complete your transaction unless your PIN is entered correctly. This is an important **safety feature**. No one else can use your card unless they know your PIN!*

You can use your card at any ATM displaying the PLUS®, NYCE®, or ACCEL® network symbols. You can also use it to make purchases at participating merchants.

What accounts can I access?
